## Syncoat™ MAGNETIC DRY ERASE MARKERBOARDS

The unique New Syncoat™ writing surface offers exceptional stain and wear resistance. Because of Syncoats™ high gloss finish it also exhibits exceptional writing and erasing qualities.

Syncoat is a synthetic resin surface applied to light gauge steel in a carefully controlled process that provides a uniform finish.

Syncoat is available in a wide variety of sizes, all at a very moderate price. All sizes are full length without seams.

Standard features include:
- Satin anodized aluminum trim
- Matching full length accessory tray
- Molded safety end caps

Also available with full length 1"
map rail with end caps

# Specialty Markerboards with Fused Lines and Graphics

These patterns are permanently **fused** with the ceramic steel surface of our markerboards making them virtually indestructible when used under normal conditions. The imprinted lines and graphics are UV, wear and scratch resistant and because they are fused within the surface they do not interfere with normal marker use.

These patterns are offered both as independently framed units with full length accessory trays or as integral components of larger or combination boards and other products.

* Shown with optional map rail (See page 31 for map rails and accessories). Markers and eraser sold separately.

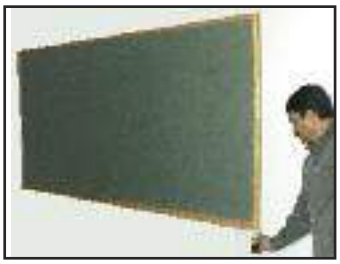
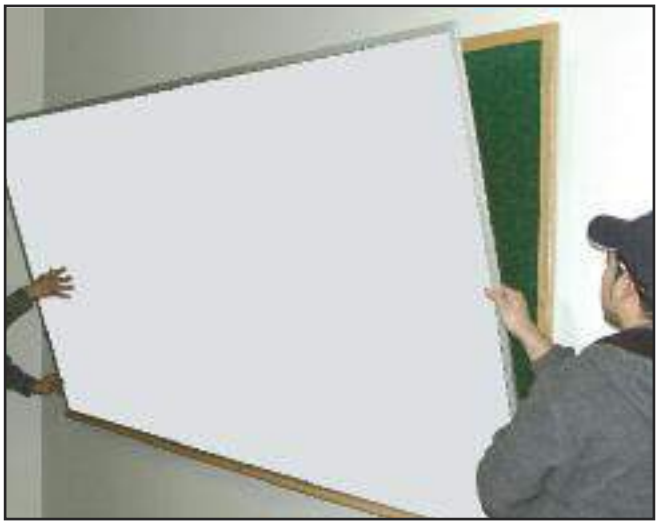
# Renews old boards in minutes



## Measure existing board

Provide your exact measurements and use next larger size for pricing. If existing board has a chalktray, measure from the top of the chalk-tray to the top of the frame. Then measure the exact outside width of the frame.



Place OverBoard over existing board (use adhesive where necessary)

Attach OverBoard with screws through pre-drilled holes in frame

## OverBoard™ by Aarco Products

Aarco Products' Overboard resurfacing system is designed to easily install new porcelain surfaces over existing chalkboards, saving time and money. Units are custom fabricated to be congruent with the originally installed material, thus eliminating the need for removal.

- Eliminates costly labor to repair old frames and surfaces
- Eliminates costly labor and downtime related to asbestos removal from old structures
- Provides high performance retrofitting of old boards. Guaranteed for 50 years
- Surface is Aarco porcelain on steel markerboard or chalkboard with 1/4" tempered hardboard core and .005 foil moisture seal
- Framed on four sides with satin anodized aluminum
- Install in minutes with pre-drilled holes over existing frame
- Writing surfaces are guaranteed for 50 years
- Adhesive supplied for spotting on old surface
- V3 high gloss surface is standard
- V2 low gloss markerboard surface is also available (requires regular cleaning for optimum performance)

**When ordering provide your exact measurements and use next larger model number. For pricing, exact measurement must be provided. Specify color when ordering.**

# MAP AND DISPLAY RAILS

Map rails are an economical method of displaying notes, charts, pictures, artwork and other important display materials. Commonly found in classrooms where accessories are used to hold flags, maps and projection screens. Also great for corridors and conference rooms.

Map rails are also great for displaying seasonal cards, photographs and announcements.

Choose from 1" high or 2" high in various lengths to best meet your needs. Map rails are made of high quality extruded aluminum with a satin anodized finish. All rails are equipped with Tan Cork which does not shrink or discolor over time, and aluminum end caps. Also available is our new 3" display rail which has all the displaying qualities as our 1" and 2" map rails, however is not equipped for accessories.

## Paper Grippers

Paper Grippers™ are useful when push pins or thumb tacks are not convenient or could damage the display materials. The Gripper uses gravity to hold small vinyl rolls down, thus trapping paper sheets inside the specially designed extrusion. To remove paper, simply push up to release the rollers' grip and move the paper in a circular motion until it is free.

Choose the Little Gripper for paper gripping requirements or the Big Gripper which also incorporates all of the features found in the 2" map rail, including the benefits of the map rail accessories which are sold separately.

# HORIZONTAL SLIDING UNITS

AARCO PRODUCTS INC.
www.aarcoproducts.com

Horizontal Sliding Units maximize the use of valuable wall space. They can be configured with up to four sliding markerboards and one full width tackboard in the same amount of space as one traditional board.

These high performance units are equipped with up to four sliding premium Vitre Steel porcelain markerboards (*chalkboards also available see below) and one stationary full width tackboard. The boards travel smoothly on nylon top mounted roller tracks (See Figure 1) and are held fast in place by the bottom mounted guide bearings (See Figure 2) allowing the user to easily position the boards as needed.

Built to last, they are constructed with durable heavy gauge aluminum trim with an attractive anodized finish. The back fixed full width panel has a 1/4" thick natural cork posting surface.

OPTIONAL FEATURES:
#10-222 Chalk tray / #10-325 Map rail

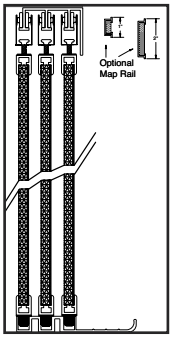
**Series 10-172C** Four track units 6" Deep



# VERTICAL SLIDING UNITS

## Floor Mounted Units with Full Vertical Movement

Vertical Sliding Units are efficiently designed to maximize the use of valuable wall space. Equipped with two premium Vitre Steel porcelain markerboards with ultra light honeycomb backing that are counterbalanced and can be raised or lowered smoothly with fingertip ease. A third rear stationary markerboard can be fully exposed by positioning the two sliding boards behind the fixed kick panel. Kick panels are equipped with attractive Burlap Weave vinyl which is durable and washable.

- V3 high gloss surface is standard
- V2 low gloss markerboard surface is also available (requires regular cleaning for optimum performance)

Specify optional V2 surface when ordering. Example: 10' x 8' markerboard with optional V2 surface FFVSU96-2V2.

Markers and erasers not included

***Hide a panel design***
Sliding panels disappear behind the decorative kick panel providing multi-media capability

**Fixed rear panel is completely exposed.** Educators can prepare multiple lessons ahead of time and if they wish, keep them out of sight by lowering the sliding panel. Then when they are ready to display this portion they simply raise the panel.

**Panels slide down behind the kick panel.** The sliding panel lifts smoothly and easily thanks to the precision counter balancing and glide system. It takes little more than a finger to raise or lower the panel.

**Fixed rear panel transforms into a multimedia cinema**

### Optional Fixtures

Models are also available without a back panel allowing you to install it in front of a closet or shelving, providing access to storage. This design can also be used to place in front of and interactive display providing even more flexibility while protecting it when not in use.
