BRING TO THE TABLE!
The Homer Laughlin China Company®
The Hall China Company®

Since 1871, your preferred tableware has been made in America by people who are deeply invested in our company, our products' integrity, and our community.

The Homer Laughlin China Company, early 1900s

From the day the Laughlin brothers decided to form their pottery company in 1871, it was meant to be the community's company—by putting local people to work and making them part of our success. Our roots are here, our growth has taken place here, and our hearts will never leave here. The towns of Newell, West Virginia, and East Liverpool, Ohio; our entire region; and generations of local pottery makers are all the better because of the rich clay in the soil of the upper Ohio River Valley.

This new catalog represents the best of both Homer Laughlin and Hall China, which together form HLC Inc. You'll find traditional favorites, the hottest trends, the simply elegant, and, as always, the opportunity to work with our Custom Design artisans to customize your own design. We'll take your ideas, sketches on a paper napkin, or just your dream of the ideal dinnerware and turn it into the perfect representation of your brand.

We know and appreciate that quality matters to you. Your preferred tableware is made in America by people who are deeply invested in our company, our products' integrity, and our community. We understand you want the best value for your money, so thank you for trusting us to provide it—with dinnerware that is durable and beautiful and made to stand the test of time.

The Homer Laughlin China Company®, now in the hands of its fourth generation of owners, is the largest remaining domestic tableware manufacturer in the United States. We have persevered because our founders had a plan 140+ years ago to make the best, most durable product while providing jobs, support, and opportunity to the community in which we live.

Thank you for sticking with us through the years. If you're a new customer, we thank you for joining us. Throughout these pages, look for some fun and informative glimpses into our company history as it reflects the events, trends, and styles of those years in America.

The History of The Homer Laughlin China Company® and The Hall China Company®

The Homer Laughlin China Co.

1871
Brothers Homer and Shakespeare Laughlin found Laughlin Brothers Pottery in East Liverpool, OH.

1897
Homer Laughlin retired and sold his company to his bookkeeper, W.E. Wells, his financial partner, Louis I. Aaron, and his partner's sons.

1904
With no more room in East Liverpool, Homer Laughlin's company began building Plant #4, across the river (and state lines) in Newell, WV; they built a suspension bridge to connect all the plants, too.

1927-1929
The Homer Laughlin China Company hired Frederick Hurten Rhead, one of the world's most illustrious ceramists. The company reached peak employment of 3,500 people at the five Newell plants.

1936
Frederick Hurten Rhead designed the brightly colored Fiesta® line with a signature concentric circle pattern.

1948
A peak production year–over 10 million dozen pieces of ware made by 3,000 workers.

1988
Marcus (Pete) Aaron II became the president of The Homer Laughlin China Company when his father, M.L. Aaron, retired, which meant that the company was now being run by the fourth generation of each family.

2010
The Homer Laughlin China Company acquired Hall China. The HLC family of companies was born.

2013
Elizabeth McIlvain became the first woman president in The Homer Laughlin China Company history.

2017
HLC Inc. is proud to have been chosen to represent West Virginia in the "Made in America Product Showcase" as part of The White House's "Made in America Week." Only one company from each of the 50 states was selected to be highlighted in the celebration.

Hall
The Hall China Company

1903
The Hall China Company was founded by Robert Hall in East Liverpool, OH.

1911
The Hall China Company's years of research finally yielded a successful lead-free glaze, which created high-quality pottery that only required one firing.

1919
Having purchased Goodwin Pottery (which meant a second plant), Hall China quickly became the world's largest producer of decorated teapots.

1936
Hall China introduced its own line of dinnerware.

2000-2010
With a 12-acre factory under one roof, 125 employees, and six state-of-the-art fast-fire kilns producing ware that's uniform and 32.2% stronger, Hall had firmly established itself as a leader in the industry.

2010
The Homer Laughlin China Company acquired Hall China.

made in USA

"OUR ROOTS ARE HERE,
OUR GROWTH HAS TAKEN PLACE HERE,
AND OUR HEARTS WILL NEVER LEAVE HERE."

WHAT DOES "LOCAL" MEAN TO YOU?

Many of us are making the effort to buy local and support independent businesses in our communities. At The Homer Laughlin China Company®, our thinking is that "local" has an even greater reach—it extends to buying from independent businesses all over our country, from sea to shining sea. It's the right thing to do.

For us:
- Local means supporting the local economy through our taxes, payroll, and supply purchases.
- Local means taking pride in our American workers—who live in our communities and are passionate about their work and the importance of American-made goods.
- Local means developing meaningful relationships with suppliers who are dedicated to their trades—in our community, our region, and all over the USA.

For our employees:
- Local means working where you live and contributing to your community, state, and regional economies.
- Local means a good job and fair wages that help you support yourself and your family.
- Local means a deep connection to the work you do, the friends you make, and the quality products you are responsible for.

For you:
- Local means faster shipping to you with no overseas transportation charges built in.
- Local means your dinnerware supplier will have a positive effect on its community as well as our national economy. Over 1,000 American workers make our products for you.
- Local means you support an American Genuine Manufacturer™ that is able to minimize waste and promote sustainability through carefully controlled, cleaner production processes.

WHERE QUALITY STILL HAS MEANING

We're proud to say, "When you hold a piece of Homer Laughlin ware in your hands, you can tell you're holding quality." Its heft, its beauty, its uniformity all tell the story.

Quality also comes with control. We own our processes, from earth to table. From design to manufacturing. From the hundreds of color glazes and patterns to the custom embossments and hand-applied decorations we offer. We deliver exactly what you envisioned for your tabletops—and then we deliver it to you faster because we're right here in the USA.

GENUINE MANUFACTURER™

A Genuine Manufacturer™ is a company that makes its own high-quality products in its own factory. Homer Laughlin is a Genuine Manufacturer, and that is a rare and desirable thing.

Think of crusty, hearty homemade bread made with natural, wholesome ingredients—it just can't compare to the ordinary loaves on grocery shelves.

In a very real sense, our dinnerware is homemade. Of course we fire our clay in state-of-the-art kilns. Of course we make our ware in molds to ensure consistency. Of course we're using 3D prototyping. We've spent the last century making our 37-acre manufacturing facility in Newell, West Virginia, one of the most modern in the world.

But then there are our people, the pottery-making wizards and ceramics scientists who keep an eye on the process. Our people who do the fine finishing and decoration of our products by hand. Our people whose pride and passion for their work are ingredients in every plate, bowl, cup, and platter.

No other foodservice dinnerware company of Homer Laughlin's size operating in the United States can claim the Genuine Manufacturer designation. Most dinnerware companies today aren't dinnerware manufacturers. They don't actually make what they sell.

Homer Laughlin and Hall China have never stopped manufacturing—through feast and famine, war and peace. We make durable, beautiful foodservice dinnerware in a wealth of colors, patterns, and styles—and have for more than a century.

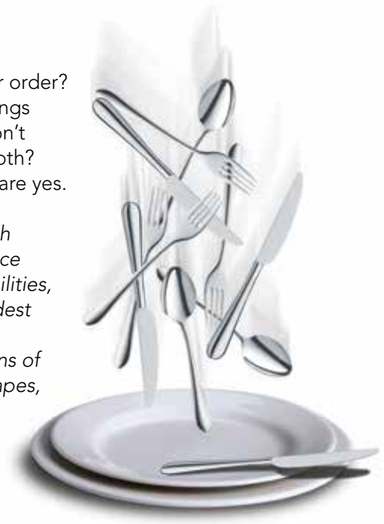
WHAT MAKES GENUINE QUALITY?

DURABILITY
The strength to withstand day after day of fast handling, dishwashing, stacking, and silverware abrasion … without damage.

VITRIFICATION
Vitrified china results when the clay goes through a single-firing process at a high temperature, making it nonabsorbent, nonporous, hard, smooth and lustrous, and strong.

ATTENTION TO DETAIL
Ask yourself: Is the pattern consistent on all pieces? Are the shapes symmetrical? Are the colors the same throughout your order? Are the bottom unglazed foot-rings polished and smooth so they won't scratch a table or snag a tablecloth? The answers at Homer Laughlin are yes.

As a Genuine Manufacturer™ with more than 140 years of experience and extensive production capabilities, Homer Laughlin offers the broadest line of commercial dinnerware, with hundreds of patterns, dozens of distinguishing colors, and 17 shapes, 11 of which are proprietary.



"Our restaurant represents the values on which this country was built. The fact that Homer Laughlin is an American company was very appealing to us. We knew we'd struck upon something special."

DAN SIMON
CO-OWNER
FARMERS & DISTILLERS,
WASHINGTON, D.C.

CUSTOM CAPABILITY

Our Custom Design Department has the creative talent and meticulous skills to take your ideas from drawing board to tabletop. Because we make our products ourselves, we can help you create the dinnerware you want—your colors, your shapes, your style, your logo.

Bring us your ideas sketched on a napkin, printed from a CAD drawing, or just in your head. Tell us what your establishment looks like, what ambiance you're trying to create, how you want your customers to feel. That's what we base our designs on, because we're real people listening to what you want in your signature dinnerware.

Then, to durable bodies of bright white or creamy ivory, we add the hand-applied decorations and mirror-like glazes, the gorgeous colors from subtle to vivid—that will meet your highest standards for quality as well as your need for value.

Your dinnerware, your way.

DINNERWARE USES AND QUANTITY RECOMMENDATIONS

What's typical in terms of quantity when you are placing a dinnerware order? Based on your location and number of turns, there is a lot of variability, to be sure. But after more than a century of setting tables, we have a pretty good sense of averages. The recommendations below will help you select the right pieces and quantities. To get the quantity of each piece, multiply the number of seats times the ordering factor shown for each type of dining, then order the closest dozen quantity.

Piece	Suggested Use	Fine Dining	Family Dining/ Theme	Cafeteria	Banquet	Institutional
5" to 6" Plates	Bread & Butter, Salad Bowl, Bouillon Underliner or Beverage Underliner	2		6	1-1/4	3
6-1/4" to 6-3/4" Plates	Bread & Butter, Salad, Dessert, or Underliner for Bouillon	1-1/2	3	3		3

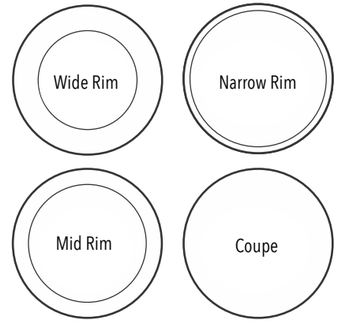
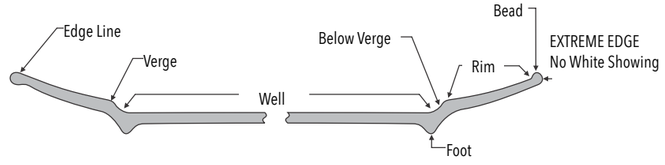
CHINATOMY: THE ANATOMY OF DINNERWARE

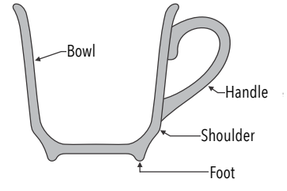
Basic Plate Types



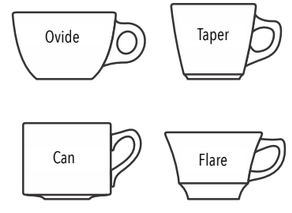
Generic Plate Cross Section



Generic Cup Cross Section



Basic Cup Types



DEFINITIONS

ITEM — The individual piece of ware; i.e., dinner plate, bouillon, cup, etc.

ITEM NUMBER — A three- or four-digit number signifying a particular item. The item will be listed underneath the image of the item, adjacent to the corresponding size and/or capacity. The item number will be the first three to four digits in the numerical sequence and will always be **BOLD**. For example: Pristine® 9-5/8" dinner plate item number is **638**XXX, with "XXX" representative of a pattern as yet to be specified.

PATTERN — The decoration, color, or embossment.

PATTERN NUMBER — A sequence of one to five digits signifying a pattern. Pattern numbers will be listed in the pattern section that follows most of our collections. Pattern numbers will also be listed in the item spreads. Here, the pattern number will be next to the item number and NOT in bold.

Note that undecorated dinnerware is also considered a pattern and has a pattern number.

BUILDING YOUR PART NUMBERS

Nobody can provide America's foodservice tabletops with as vast a selection of colors and patterns as Homer Laughlin. We add these hues and unique art to our base collections to result in the most complete dinnerware offering on the planet. Once you have selected your items and the perfect pattern, then you can build your part number. In order to do that, you simply combine the item number with the pattern number.

How to build your HLC part number:

item # **(bold #s)** + pattern # (unbold #s)

Dazzling tabletops demand more than plain vanilla plates. Answering this call, our Colors and Patterns lines tell unique stories with each serving. Personal style, expression, and edgy individuality are the hallmarks of these refreshing, totally modern takes on the artfully dressed table.

The Homer Laughlin China Company® understands the importance of choosing a dinnerware collection that complements your establishment and style. That's why we take great pride in offering an extensive variety of solid, lead-free glazes and distinctive patterns that sets us apart from other dinnerware companies.

STYLISHLY URBAN

Brownfield™, with its curvy coupe shape and peppery-speckled glaze, embodies the renaissance of the urban "maker." Each piece owes its handcrafted appearance and individual color variations to a two-step glazing process–a true expression of the potter's art. Brownfield lends an authentic vibe to your establishment, whether farm-to-table bistro or bustling neighborhood café.

Brownfield's distinctive deep-well pieces offer stackable flexibility, generous plating space, durable storage, and easy handling. Rustic and inspiring, Brownfield brings creativity to the table in pewter, cobblestone, or charcoal.

1871

As haute couture fashion began to capture attention, there was also a push for more elegance on the dining table. To combat the flood of white ware that was being imported from England, the city of East Liverpool, Ohio, already known for its pottery, offered $5,000 to anyone who would build a white ware factory. Brothers Homer and Shakespeare Laughlin were awarded the money and founded what's now known as The Homer Laughlin China Company®.

Personal style, expression, and edgy individuality are the hallmarks of this refreshing take on the artfully dressed table.

1874

The Laughlin brothers' first dishware factory opened with two pottery kilns. A mere three years later, they won a medal for the best white granite ware at the Centennial Exhibition in Philadelphia. Other items at the exhibition included the telephone, the stove, and a new foreign fruit called the banana. Three years later, Shakespeare Laughlin moved on and Homer's company became The Homer Laughlin China Works.

COTTAGE™
COLORS & PATTERNS

INSPIRED BY SUMMER VACATIONS

Cottage™ marries warmth and unpretentious charm to high-performance dinnerware. Its vintage-turned-modern design features a graceful scalloped edge and a stippled decoration, available in bleu or brun, which is hand applied on each piece, with custom attention from our artisans. Cottage delivers a special experience for your guests while offering durability and abrasion resistance with superior heat retention.

Suggesting a sentimental yearning for a former place or time, Cottage is perfectly at home in upscale or cozy settings and sets a tone to be remembered.

1886

The newly named Homer Laughlin China Company® was busy producing an American creation: the first American-produced elegant dishware that could compete with European imports. Jere Simms, editor of the East Liverpool Tribune, proclaimed, "It is no longer a question of doubt that the finest, thinnest, and most translucent of china can be produced here in America."

AN AMERICAN ICON™

One of the most collected dinnerware products in the world, the beloved Fiesta® line was designed by Frederick Hurten Rhead and introduced to the American public by The Homer Laughlin China Company® in 1936. A.V. Bleininger brought the bright hues to the forefront, further popularizing the line. Originally introduced in just five colors, Fiesta was an unprecedented sensation.

Today, Fiesta continues to add unparalleled character and vibrance to every table. Fifteen bold colors complement each other beautifully and can be mixed and matched with other shapes to amp up or dial down the color range to suit your own unique presentation or culinary whims.

Fiesta's classic–and now famous–Art Deco design, with its concentric rings and stunning colors, make it the quintessential statement of retro American style.

1897

Helen Keller learned the word "water," Virginia learned that, yes, there is a Santa Claus, and the nation learned that there's always room for Jell-O. In East Liverpool, Homer Laughlin's Plant #1 expanded to four kilns. But the biggest news was when Homer Laughlin retired and sold his company to his bookkeeper, W.E. Wells, his financial partner, Louis I. Aaron, and his partner's sons, Marcus and Charles I. Aaron.

Did You Know?

When it comes to perceived portion sizes, not all same-sized plates are equal. Plate design characteristics, such as plate color and rim design, create a perception illusion that can help you control portions. It has to do with the fact that a circle appears larger when surrounded by a slightly larger circle–consider a plate's rim. Manipulating rim coloring and increasing the rim's width both highlight the outer circle, leading people to perceive the size of the inner circle as larger than it actually is and allowing for the perception of a larger portion.

Source: A McClain, W van den Bos, D Matheson, M Desai, S M McClure, T N Robinson, Visual illusions and plate design: The effects of plate rim widths and rim coloring on perceived food portion size.

Mix and match colors and shapes to make the extraordinary possible. Fiesta®'s famously rich palette always coordinates.

FRESCO
COLORS & PATTERNS

EARTH-TO-TABLE

Earthy tones swirl and merge with Fresco from The Homer Laughlin China Company®. Created in collaboration with renowned studio potter John Britt, Fresco has a one-of-a-kind matte-finish glaze that incorporates multiple stains in the process. Complement the collection with Fresco Hues, a new series of Fresco bowls with the surprise of vibrantly colored interiors in robin's egg blue, goldenrod, and lemongrass. Each piece combines durability with the look and feel of a handcrafted original.

The addition of Fresco Hues takes Fresco in an exciting new direction. The counterpoint of striking colored interiors on the new Fresco Hues bowls—the icy coolness of blue, the citrusy sharpness of lemongrass, and the comforting warmth of goldenrod—will add depth, dimension, and personality to the dining experience.

1899

With the rise of "conspicuous consumption" (a termed coined during this year), The Homer Laughlin China Company® created its American Beauty shape, making it the most ornate dinnerware ever created for the mass market. But the question is, did those people lucky enough to have the newest kitchen gadget–a dishwashing machine–trust it with their beautiful new American Beauty "semi-vitreous china"?

MAKE A STATEMENT

Quarry offers a dark canvas for artistic-minded chefs to plate their cutting-edge creations. It was specifically designed to complement food, but never overshadow it. The darker hue provides a moodier contrast when plain white just won't do.

Depending on room lighting's color and intensity, the eye will see shades of gray, olive, blue, and silver. Different angles of light create even more tones and gradations. The satin finish begs to be touched, inviting patrons in to the dining experience. It gives the impression of texture and adds depth, but won't feel rough against utensils. Swooping curves catch the light and further visual interest.

Quarry invites chefs and restaurateurs to dig deep and excavate their creativity with dinnerware that can stand up to their boldest ideas.

1899-1901

In 1899, the workers who built the company's second East Liverpool plant could take aspirin for their aches and pains. And in 1901, while Texans discovered their first oil, the Homer Laughlin Company was busy increasing its own industry prominence by adding Plant #3 and replacing Plant #1, giving them a total of 32 kilns.

WAY OUTTA SIGHT!

It's sometime between the late 1940s and the mid-to-late 1950s. Route 66 was in its heyday. The style was ... futuristic. It was an unapologetically artistic type of world.

Homer Laughlin was there. We developed of-the-moment patterns that were just as likely to be set on tables in an off-highway diner as in an upscale coffee shop or bistro.

Many restaurants today are fighting to regain character on the table, pushing back on the all-white tabletop and the minimalist messaging it conveys.

Patterns and colors are back. And with it, Retro patterns are being pulled back to the table. And, as always, they're all lead free.

At Homer Laughlin we like to say, "Who better to lead the Retro charge than those who CREATED it!"

1904

Like the hot dog and French's mustard that were introduced at the St. Louis World's Fair, East Liverpool, Ohio, and Newell, West Virginia, became the perfect partners in 1904. With no more room in East Liverpool, Homer Laughlin's company began building Plant #4, the largest pottery plant ever constructed, across the river (and state lines) in Newell; they built a suspension bridge to connect all the plants, too.

SEPIA™ PESTO® INDIGO™

COLORS & PATTERNS

EACH PIECE TELLS ITS OWN STORY

Set your inspired tabletop with Sepia™, Pesto®, and Indigo™ and allow a compelling story to unfold with each serving. This richly pigmented dinnerware is manufactured with a glazing process that ensures a handmade look, with slight color variations from piece to piece.

The unique counterpoint of shapes, the exceptional durability of the ware, and the rich natural hues combine to invite conversation and create a warm mood. Mix and match all three colors to set a lively, welcoming table.

1907

Oklahoma became the newest state in the Union, and Newell, West Virginia, became the new headquarters for The Homer Laughlin China Company®. It made sense; with the completion of Plant #4, the majority of the company's pottery was being created in their now 62 kilns, which produced 300,000 pieces of finished pottery a day–10% of the dishes sold in the U.S.!

STATEMENT DINNERWARE FOR THE BOLD

An inventive new design from The Homer Laughlin China Company, Skull and Vine® adds an air of mystical celebration to every meal. Demonstrating the high artistry that is the hallmark of HLC, it takes dinnerware decoration to new levels of inspiration.

The intricate pattern, inspired by symbols of the Day of the Dead holiday (Dia de los Muertos), comes in two dramatically contrasting colorways: Skull and Vine - Foundry features a metallic design on a matte black cast-iron-like finish. Skull and Vine - Sugar boasts a festival of Fiesta® colors on a classic white ceramic background.

Whether you want to create a dark and mysterious aura or a bright, festive atmosphere, Skull and Vine attracts plenty of attention to the table. It is dinnerware for the bold and adventurous establishment, no matter the menu.

1914

While Hollywood was busy creating its first feature-length film and the first assembly line for the Model T made the first affordable American car even more affordable, The Homer Laughlin China Company® was busy growing their pottery business: they built Plant #5, which added 16 more kilns.

TERRACE
COLORS & PATTERNS

THINK SPRING ANY TIME OF YEAR

Named for the lovely patios that welcome friends to gather outdoors, Terrace comes in four lively colors evocative of sunny weather: citrus, aqua, gray, and pink.

Picture the colors of Terrace highlighting a light summer salad, an assortment of scones and tea cakes, or a satisfying bowl of pasta primavera. Each hue is perfect for dining al fresco or for bringing some of the brightness of the outdoors inside any time of year.

1917

In this year, the F.W. Woolworth Company had hundreds of stores, and their Woolworth Building headquarters was the tallest building in the world. They also had an immensely successful partnership with The Homer Laughlin China Company. In a letter to the F.W. Woolworth Company, W.E. Wells, general manager of Homer Laughlin, stated, "…this is the first time in history that the purchases of any one concern from any one pottery firm have reached the million (dollar) mark in one year (1916)." And then the U.S. entered World War I.

ALEXA®
AMERIWHITE®

FREEDOM OF PRESENTATION

Complete control belongs to the chef who chooses Alexa®. A purity of line and a sophisticated finish suggest the smooth, tactile appeal of a calm reflective pool. Crafted in bright white to flatter every offering, Alexa lends stylish and stackable flexibility, maximum plating space, and storage efficiency.

The Alexa line is fashioned in a light commercial grade and showcases beautifully curved edges in both square and triangular shapes. Ideal for layering, Alexa lends drama to appetizer, soup, and dessert presentations.

early 1920s

It was a post-war world, and the early 1920s were a time of revolutionary change in America. Fashionable flappers bobbed their hair, the first news and commercial programming began on the radio, and the 19th amendment gave women the right to vote. The Homer Laughlin China Company® followed the innovation trend, building Plant #6 and introducing continuously firing tunnel kilns, which revolutionized production speed, quality, and efficiency.

ALEXA® ITEMS

How to build your HLC part number:
ITEM # **(bold #s)** ⊕ PATTERN # (unbold #s)

Alexa also offers a range of unique items, including both triangle and square plates as well as the recently introduced coronet salad, soup, and pasta bowls. A universal saucer design fits every cup, stacking bowl, and bouillon, mug and fruit bowl. This is a line that appeals to both the bottom line and the tabletop.

AURORA™
AMERIWHITE®

THE DISTINCTIVE CHOICE

Aurora™ brightens any table setting with concentric circles around the rim. A beautiful, pure white choice, Aurora is perfect for fine dining, hotels and other upscale establishments. Enhance the artistry of your plated composition without sacrificing durability. Aurora is elegant and timeless, its bright Ameriwhite® body drawing the eye to the center of the plate with a subtly accented rim.

1921

"Steee-rike!" 1921 brought the first radio broadcast of a baseball game, enabling fans to catch every minute of the excitement. The end of the year also brought the debut of an opulent display room in Homer Laughlin's Plant #4 in Newell, where visitors can still see and soak up the history, quality, and beauty of Homer Laughlin dinnerware.

GALA™
AMERIWHITE®

OUR LIGHTEST-EVER DINNERWARE

Gala™ brings a lot to the table, and yet it is the lightest-weight dinnerware we've ever made. How light? The Gala 10-3/8" plate comes in at a slight 23.9 ounces. It's also a brand-new shape!

Gala is the ultimate accompaniment for high-end restaurants and other white-tablecloth environments, all catering and banquet operations, and any other dining occasion.

Elegant and refined, Gala is ultra lightweight for maximum ease of use, but still has the durability we've built our reputation on for maximum wear life. Made in the USA and covered by our famous lifetime limited warranty against chipping under normal usage conditions.

1927-1929

The Homer Laughlin China Company was hurtling forward, building new Plants #7 and #8, replacing bottle kilns with tunnel kilns, and hiring Frederick Hurten Rhead, one of the world's most illustrious ceramists. Plants #1, #2, and #3 in East Liverpool were closed permanently, while the company reached peak employment of 3,500 people at the five Newell plants.

KENSINGTON™
AMERIWHITE®

ELEGANT EUROPEAN STYLING

Kensington™ transcends European elegance with its classic architectural design and pure white color. Accented by an intricate white-on-white embossed lattice sculpting and detailed pointed-arch pattern on a wide rim, Kensington is the centerpiece of a sophisticated tabletop. Unique and stylish accessory items are sure to enhance the presentation of any dish on your menu.

1931

On a roll with his successful creative direction, Frederick Hurten Rhead created the Century shape—a square plate with rounded edges and a circular interior that could be decorated in many ways. The Riviera pattern on Century was released in 1938.

Did You Know?

Kensington®'s embossed rim motif sparkles in dining room lighting and is further enhanced by its pure white body. Add to that its high Alphalain® content—which increases durability—and the result is enduring beauty.

PRISTINE®
AMERIWHITE®

WHEN UNDERSTATEMENT SAYS IT ALL

A simple and classic design, Pristine® works well in any environment, from fine dining to contemporary casual and from university dinner halls to creative catering.

Pristine offers a broad range of items in its simple base shape, but the vast number of additional patterns and decorations expand the line and help make Pristine a study in graceful contradiction.

For example, Pristine is at once elegantly reflective—with its mirror-like sheen and wide, portion-enhancing flat rims—and remarkably durable given its Alphalain® body, which enhances chip-, abrasion-, and impact resistance.

1936

Inspired by the burgeoning Art Deco movement, Frederick Hurten Rhead designed the brightly colored Fiesta® line with a signature concentric circle pattern, which included dinnerware as well as variety of accessories. The original colors were red, bright yellow, cobalt blue, light green, and ivory.

AMERICANA
IVORY BODY

BEAUTIFUL, THIN DINNERWARE DOESN'T HAVE TO BE FRAGILE

Americana is our thinnest dinnerware yet, delivering style and elegance to the table without sacrificing strength or affordability. This 9-piece line brings distinction to your brand with its crisp Arctic White glaze on Homer Laughlin's durable Ivory Body. Our made-in-the-USA, always-lead-free dinnerware is crafted to be better at resisting chipping, cracking, and crazing. Set the table with Americana—at the intersection of quality and luxury.

1936

Following the success of Fiesta®, Rhead created Harlequin exclusively for Woolworth's. It was a brightly colored, more angular design that was less expensive than its predecessor. As the Depression made people tighten their belts, the stylish yet affordable Harlequin became an all-time best-seller for Woolworth's.

CAROLYN
IVORY BODY

DISTINCTIVE SCALLOPED EDGE

Carolyn owes its classic heritage to its distinctive scalloped edge. Bringing elegance, sophistication, and presence to the table, Carolyn harkens back to an era of graceful simplicity, warmth, and comfort.

Refined enough for your most dramatic presentations yet demure and unassuming enough to allow the food to take center stage, Carolyn epitomizes Homer Laughlin's strength and character down to the last detail.

1940s

World War II was a time of rationing and diversion, but The Homer Laughlin China Company® was a strong support at home. They shifted much of their production to make ware for the United States armed forces. Also on the home front, Homer Laughlin's president, Marcus Aaron, retired in 1940, and his son, Marcus Lester Aaron, succeeded him.

EMPIRE
IVORY BODY

CLASSIC ELEGANCE, CONTEMPORARY MINIMALISM

For those whose art needs no frame, Empire offers a completely rimless shape that maximizes plating space and allows your creations to take center stage. The modern table—as imagined from the Pacific Rim to European culinary experiences—inspired this artful, ultra-clean dinnerware line. Instantly timeless, Empire creates a flowing, organic ambiance that is beyond compare.

The completely coupe face ensures unparalleled flexibility. Empire's tranquil style transcends trendiness to deliver a flawless, minimalist canvas for your most sculptural culinary masterpieces.

1948

Post WWII, things got back to better than normal, with 1948 as a peak production year—over 10 million dozen pieces of ware made by 3,000 workers. Perhaps the new "William Tell Overture" played in the background (or at least people's heads) to keep them energized as they added design director Don Schreckengost's new dinnerware lines: the sculptural Jubilee and angular Triumph.

FLIPSIDE®
IVORY BODY

FUN FUNKY FUNCTIONAL

FlipSide® is an exciting, whimsical line with an embossed rib design that accents both the inside and outside of each piece, extending the fun from the food to the table. FlipSide's ribbed exteriors provide a unique natural gripability along with striking good looks. Modern coupe edges maximize the plating area and lend your table creativity and style.

Holloware drain notches reduce water spotting and increase the sculptural appeal of FlipSide. Funky, fun, and functional: FlipSide is ideal for lively modern meals and a clearly cheerful table.

1950s

Cheap imported dinnerware became a major source of competition within the consumer market, so The Homer Laughlin China Company® shifted its focus to commercial ware for restaurants. As America was "(Getting its Kicks on) Route 66," Homer Laughlin created futuristic and artistic dinnerware patterns for diners and coffee shops, including Fox Fern, Checkers, Styleline, American Rose, Jet Spray, Astro, Wheat, Regal, Greek Key, Pinwheels, and Golden Ambrosia.

Arctic White 10000

GOTHIC®
IVORY BODY

SERVE WITH CONTINENTAL FLAIR

Inspired by the dramatic and graceful pointed arches of the great European cathedrals, this traditional dinnerware lends timeless elegance to fine dining tabletops and interiors. Gothic® features a subtle tone-on-tone lattice sculptured rim motif, evoking the enduring architecture of some of the most breathtaking structures in the world.

Gothic enhances food presentation with its graceful lines and mirror-like finish in a high-fire glaze. Destined for the fashionably elegant dining experience, Gothic presents a thin profile, yet is highly durable and abrasion-resistant. Superior heat retention ensures that the taste and appearance of the food will linger in the mind as well as on the palate. A medium depth well contains sauces, and Gothic's lattice sculpturing on the rim provides beautiful food framing.

The Gothic line offers a completely coordinated tabletop, right down to the matching salt and pepper. Whether presented on traditional linen or a gleaming wood tabletop, Gothic makes a statement like no other.

1959

The Homer Laughlin China Company® saw a great opportunity to produce fine dishware for restaurants and created the "Best China" brand line in Plant #6 specifically for this purpose. Whether it was available in the two brand new U.S. states (Alaska and Hawaii) is unknown. But we do know that by the 1980s, hundreds of restaurants and hotels were using Homer Laughlin ware, including Marriott hotels.

LYRICA®
IVORY BODY

WHIMSICAL, FESTIVE STYLE

On a lighter note, Lyrica® brings a whimsical, festive style to your upscale food presentation. A masterful pairing of fine design and pure flight of fancy, Lyrica's asymmetrical embossing creates a stylish food frame that makes it versatile enough for any décor, from traditional to contemporary.

Conceived in the sensuous, willowy world of Art Nouveau—but graced with the durability, deep well, and stacking ease desired in today's world—Lyrica is as practical as it is playful.

1960

The Wells family took their next step within The Homer Laughlin China Company®. J.M. Wells, Sr. retired as general manager, and his son, Joe Wells, Jr., took over to become the family's third generation of company leadership.

LYRICA®
PATTERNS

How to build your HLC part number:
ITEM # **(bold #s)** ⊕ PATTERN # (unbold #s)

Undecorated Lyrica® 1000

LYRICA IS AN EMOTION

Lyrica combines strength with beauty and durability with charm. With sweeping curves akin to the artist's brushstroke, it evokes thoughts of both the whimsy and the earthy. Lyrica is given a new form as patterns accent the waves that rise from its rim.

Cornflower 1589

Lydia

green 1569 maroon 1613 black 1743

Ross 1639

Seasons 5820

Lyrica stacks to create a beautiful presentation. Below: 10-5/8" (**609**1000) base plate with 9" (**607**1000) plate and 7-1/4" (**605**1000) plate on top. Nappy (**602**1000) caps the stack.

NADIA™
IVORY BODY

CRADLE YOUR FOOD

Without boundaries and edge lines, this rimless coupe dinnerware extends beyond its borders to reflect the story of your tabletop. Nadia™ inspires artistry, maximizes plating space, and assures storage efficiency.

Homer Laughlin's Nadia collection is the first refined coupe dinnerware made available in the company's strong and affordable Ivory Body. Nadia raises the bar on beauty, durability, and abrasion resistance. Simple, sweeping, clean lines presented in appealing, cost-effective dinnerware means guests feel valued time after time, meal after meal, year after year.

1970

1970 saw the first wave of construction of hotels for business travelers. Hotel chains began to cater to their customers' wishes, offering more services, larger rooms, and more sophisticated cuisine. It wasn't surprising that Homer Laughlin's fine hotel ware was becoming a prominent player in the foodservice china industry, eventually overtaking their retail dinnerware in sales volume.

Arctic WHITE

Nadia™ is also available in Arctic White. A perennial favorite, white dinnerware complements any décor and makes food look beautifully appetizing.

NARROW RIM
IVORY BODY

INVITING EDGES, NOSTALGIC APPEAL

A counterpoint to the Rolled Edge line, Narrow Rim brings its own strikingly nostalgic appeal to the table. A narrow rim and deep well create ample plating space for more generous portions and sauce-based entrées. In addition, the smaller rim magnifies plating space and lends the impression of a larger, more fulfilling portion.

Saving you precious tabletop real estate without sacrificing portion size: that's the beauty of Narrow Rim.

1986

As people all around the country united in Hands Across America, Joe Wells Jr., executive vice president, retired and handed over the position to his son, Joe Wells III. This was also the year of returns, as Bobby Ewing came back from the dead on "Dallas" and Fiesta® was reintroduced with the same classic aesthetics and new, more modern colors.

RE-21®

IVORY BODY

RETRO CHIC FOR A NEW MILLENNIUM

Rolled Edge comes full circle for the 21st century, thanks to some inspiring innovations. Designed from the ground up to accommodate your uncompromising standards, RE-21® gives the chef more freedom than ever before without sacrificing the nostalgic rolled edge design. A shallower well and elevated angle form a higher, more dramatic stage to give food unparalleled impact. The luminous concave cusp creates an enhanced perception of robust depth, yet the underside roll and wide rim ensure that all the classic touchpoints remain comfortably in place.

Lock-stacking design and a wide range of items make RE-21 the past, present, and future of foodservice.

2000s

As America was struggling to deal with the shock and economic aftereffects of September 11, 2001, The Homer Laughlin China Company® continued to make the country proud. Fiesta® was a big retail seller, the company was a dishware leader within the foodservice industry, and the plants were updated with state-of-the-art kilns and other modern equipment, which not only ensured quality and efficiency but also ensured its jobs steadfastly remained in the U.S.

Did You Know?

Wider and colored rims each exaggerate perceptions of the amount of food on a plate, so servings look larger. And this proves true regardless of the food type. So from salad presentations to protein portioning, rim size and rim color should be a part of your plating decisions.

Source: A McClain, W van den Bos, D Matheson, M Desai, S M McClure, T N Robinson, Visual illusions and plate design: The effects of plate rim widths and rim coloring on perceived food portion size.

ROLLED EDGE
IVORY BODY

A CASUAL DINING FAVORITE

A much-loved shape in the foodservice industry for decades, Rolled Edge is a classic ivory dinnerware with traditional appeal for most tabletop environments.

Rolled Edge dinnerware features a wide, food-framing rim and an appealing ivory finish—the result of a high-fire, lead-free glaze that exceeds all environmental standards for safety. A heavy-gauge, high Alphalain®-added body offers exceptional durability and resists scratches, chipping, and center-plate impact. Its superior heat retention ensures that food will stay warm from the kitchen throughout the meal.

With all of these high-quality features, Rolled Edge is pleasingly economically priced. Rolled Edge also offers an extensive selection of unique items and accessories, the right piece for every purpose. Truly versatile, American-made Rolled Edge will be your go-to favorite for years to come.

2010

As people across America struggled with unemployment due to the recession, The Homer Laughlin China Company® took steps to revitalize Newell, West Virginia, and East Liverpool, Ohio. The company acquired Hall China, a venerable company with over 100 years of success producing specialty foodservice tabletop ware. The merger improved the lives of the workers in both plants and ensured the continued production of low-cost, high-quality products. The HLC family of companies was born.

SEVILLE®
IVORY BODY

UPSCALE EUROPEAN STYLING FOR THE CONSUMMATE DINING EXPERIENCE

Seville® exudes understated elegance. A marvelous choice for upscale interiors, Seville's thin profile, organic appeal, and proprietary sculptural elements speak to a sleek, European sensibility. Space-conserving, highly decoratable, and available with an optional narrow rim, Seville is without peer.

Create an unforgettable experience for your most discerning diners with the fluid softness and superior sophistication of Seville.

2012

In the early 21st century, HLC responded to trends and lifestyles, creating new dinnerware inspired by the industrial and artisan movements, the farmhouse/cottage chic interior design popularized by HGTV's "Fixer Upper," and the farm-to-table dining movement. After 145 years and still going strong, The Homer Laughlin China Company is clearly poised to last longer than all the Netflix binge-watching, kale eating, Facebook friending, and mocha latte drinking combined.

UNIQUE 158

What is it that brings your signature dishes to life? A dash of something unexpected? A rare and exotic spice? An unusual pairing of flavors?

Thinking outside the box is a defining characteristic of a great chef, just as it is of any good artist. At The Homer Laughlin China Company®, we think of our own work in this vein, believing that originality is at the core of what we do and who we are.

CREMA PERFECTA
ACCESSORIES

GIVE YOUR COFFEE SHOP A SHOT OF FLAVOR

Created for the specialty coffee market, Crema Perfecta comes in universal capacities and shapes used in the specialty coffee industry, including a wider radius for espresso beverage prep and pour. Completing the line are saucers, plates, and bowls for your pastries and other food service.

Crema Perfecta is designed for stackability to maximize your storage space and fortified to reduce chipping, cracking, and crazing.

Bold and smooth, Crema Perfecta serve up confidence with every cup.

2013

The first woman president in The Homer Laughlin China Company® history took over. Joe Wells III stepped down and passed the torch to his sister, Elizabeth McIlvain, marking the first time the office went to a sibling rather than from father to son.

CUPS & MUGS
ACCESSORIES

SURROUNDING FLAVOR WITH DISTINCTION

The best coffee experience can be taken further. The morning Arabica or the evening French roast; by name they take your customer somewhere emotionally. Coffee is an experience. A journey. Define that moment and make the experience relate to your own décor, mood, theme, or degree of elegance. By enhancing the journey with cups and mugs designed expressly to elevate the consummate pleasure your customer is about to embark on, suddenly you have reached out to them and brought them back—back to you.

2017

As the White House turned its focus to American-made products with a weeklong program showcasing homegrown goods and companies, HLC Inc. was proud to have been chosen to represent West Virginia in the "Made in America Product Showcase" as part of "Made in America Week." Only one company from each of the 50 states was selected to be highlighted in the celebration.

UNIQUE AND MEMORABLE

In the spirit of offering unique and memorable presentation options to our customers, Homer Laughlin presents a line of distinctive all-purpose dinnerware items and accessories that are as functional and durable as they are beautifully crafted. This section offers a variety of plates, bowls, platters, bakers, cups, and more that are appropriate for hospital cafeterias, extended care facilities that require patient tray services, campus hospitality, and banquet foodservice.

2019

With heavy hearts, we announced the passing of Joseph M. Wells, III. Joe's career with The Homer Laughlin China Company began while he was still in high school, but the company had been a part of his family for generations. He took the position of executive vice president in 1986. In 2013, he retired and became chairman of the board of directors. No matter his role with the company, Joe exemplified the deep-seated values of The Homer Laughlin China Company. His legacy will live on in all that we do.

HALL CHINA CONTINUES ITS MISSION AS THE LARGEST MANUFACTURER OF SPECIALTY DINNERWARE

HALL CHINA: NOW & THEN

Masters of color and line, we set trends that others follow.

The Hall China Company® was founded in 1903 in East Liverpool, Ohio, by Robert Taggart Hall. By 1930, after three decades of rapid growth, the company's three separate operations facilities were consolidated into the present plant location.

Today, as part of the HLC family of companies, Homer Laughlin sets the table with its vast selection of dinnerware, and Hall completes the setting, with center-of-table accessories, serving ware, and freezer-to-oven-to-table cookware.

By combining our companies' design and manufacturing expertise, we produce products that are both lower in cost and superior in quality, while continuing to employ hundreds of Americans working in both plants.

Hall China plant, circa 1930.

BUILDING YOUR PART NUMBER GUIDE*

- Throughout this catalog you will see our products arranged in various product families. Each product has a corresponding item number. This number is two to five characters and is in BOLD type.
- To build your custom part number, you tell us more about how you want us to finish your selection, such as color, pattern, and more.
- Use this guide to build your part number. It isn't complicated, but each character is important to ensure accuracy of your order.

How to build your Hall China part number:

ITEM #	+	5 CHARACTER CONFIGURATION				
113	+	0	A	W	H	A
Bold Item Number (2-5 Characters) We presented the ITEM NUMBER as **BOLD** throughout the catalog to ensure clarity.		This number is ALWAYS a 0 (zero) UNLESS the item number ends in a fraction. IF the # ends in 1/2, change to a 2 – or – IF the # ends in 3/4, change to a 3	This is ALWAYS an A UNLESS it is a product that can be sold with a cover. (A) = Complete – or – (B) = Body – or – (C) = Cover	Color (First Letter)	Color (Second Letter)	Regardless of the color, we need to know if you want all-over color, or, keep the inside white. (A) = All-Over Color – or – (B) = White Inside

We showcase our most creative collections in this section. Here is where our artisans and skilled craftspeople blend cutting-edge pottery-making techniques and artistic inspiration to create some of our boldest, most memorable lines. When you want to make a lasting impression on each guest and set yourself apart from the crowd, consult these pages for standout designs, patterns, colors, glazes, shapes, and sizes.

COLORATIONS
HALL CHINA

CHOOSE FROM THE RAINBOW

Color-glazed bakeware and tabletop accessories elevate form and function to the level of synchronized beauty, as Hall China's Colorations pairs perfectly with Homer Laughlin's Colorations and Fiesta®.

Classic with a vintage edge, Colorations features a variety of versatile items, each as functional as it is festive.

Like all Hall China, Colorations boasts superior durability and brilliance. High-temperature glazes ensure a clean, lasting brilliance, designed for years of use. Appealing enough for daily presentation, Colorations brings gracious sophistication to every table.

Colorations: vintage cheer, modern sophistication.

1903

As the Wright Brothers took their first flight, baseball players competed in the first World Series, and children embraced the first teddy bears, The Hall China Company® was founded by Robert Hall in East Liverpool, Ohio. Hall assumed his share of the disbanded East Liverpool Potteries Company and took over the West, Hardwick, and George Pottery Plant, hiring 33 potters to use three bottle kilns to make bedpans and combinets (since you asked, that's a combination chamber pot and slop jar).

COPPER
HALL CHINA

A DISTINCTIVE IMPRESSION

No doubt about it: Copper makes a strong and distinctive impression. The new Copper line delivers the warmth and strength of copper, but in a smooth, durable ceramic that won't rust or stain like real copper.

Metallics are a popular way to set a unique and dramatic tabletop, and Copper's sheen doesn't disappoint. It catches the eye, stirs the appetite, and brings the bold. Whether dishing up dips and apps, showcasing juicy burgers, or presenting scrumptious entrees on plates or platters, Copper's glow makes meals memorable.

1904

Sadly, founder Robert Hall died only a year after forming The Hall China Company®. His son, Robert Taggart Hall, took the reins and began looking into developing a glaze that could withstand strong heat so the ware would only require one firing.

FOUNDRY™
HALL CHINA

STRONG MOOD SETTER

Foundry™ creates a powerful visual impression. The dinnerware collection and matching baking, service, and completer items bring a bold, rugged character to any table.

With its uniquely functional presentation, Foundry is molded to impress. The line offers the look of cast iron without the risk of rust or metalware's hard-to-handle heavy weight. And like all Hall items, Foundry distributes heat evenly and is microwave safe and ovenproof (to 450°F).

Foundry's high-quality, lead-free glaze delivers a distinct personality that wows guests. From au gratin bowls to coffee cups, Foundry symbolizes strength and beauty at every level of the dining experience.

1905-1911

The Hall China Company® spent many years researching ways to make a single-fire process possible, and the company often struggled to make ends meet with its bedpans, combinets, mugs, and jugs. They introduced small amounts of dinnerware in 1908, although their production process was not nearly as efficient as that of Henry Ford's newly released Model T.

Did You Know?

You can mix and match Foundry to create a striking tabletop. Shown here, Foundry stacks with Fiesta® and Embers from The Homer Laughlin China Company®.

GROVE
HALL CHINA

INSPIRED BY NATURE

Grove blends the beauty of the natural world with deco to create dinnerware destined to become a tabletop focal point and the champion of your signature appetizers, shareables, and sides. Bold, asymmetrical shapes take their cues from tree slices, driftwood, and flat stones. With surfaces marked by grooves, contrasting colored glazes settle in varying thicknesses and intensities, making each piece a one-of-a-kind creation.

Reminiscent of driftwood, Grove — available in gray or sepia — adds contrast to your table, creates a dramatic focal point, and elevates your existing dinnerware beyond the ordinary.

1911

While Procter & Gamble was introducing its newest product, Crisco shortening, The Hall China Company®'s years of research finally yielded a successful lead-free glaze, which created high-quality pottery that only required one firing. This increased production from two dozen pieces to 16 dozen pieces per day.

SOHO
HALL CHINA

CURVE, MEET LINE

Square and rectangular bodies that flow into natural curves define Hall China's bright-white SoHo line. Inspired by the chic minimalism of boutique restaurants and sidewalk cafés, SoHo allows chefs to build their culinary designs set against bold straight lines and rounded bodies.

A dual-purpose line, SoHo offers stunning shapes that easily transition from shared service to individual dining—with sophistication and beauty to spare.

SoHo: minimal and marvelous.

1919

With the introduction of prohibition and The Hall China Company®'s first gold-decorated teapots, there was much ado about beverages in 1919. Having purchased Goodwin Pottery (which meant a second plant), Hall China quickly became the world's largest producer of decorated teapots.

LET'S BE CASUAL

Hall China invites you to the table with the new, rustic Studio collection, where beauty meets individuality.

With the informal look and feel of handmade pottery, every piece has slight irregularities and variations, delivering a fashioned-from-clay aesthetic with unique accents. From the slight bumps and rolling surfaces of the bowls to the subtle accents on plates, Studio creates a casual, comfortable atmosphere. Rustic and unique doesn't mean fragile, however. Unlike traditional earthenware, Hall's Studio collection has a non-porous body and the high-fired durability our customers expect.

In either Gray or Yellow, Studio blends with other natural elements in your decor. Mix and match the colors to create an inviting dual-toned tabletop. Or combine Studio with your existing dinnerware line to welcome guests with a distinctive, eclectic vibe.

1920s

Hall China joined with the Jewel Tea Company to produce an exclusive line of dinnerware. Jewel started using Hall teapots as premiums, and added its own line of distinctive dinnerware and kitchenware made by Hall, including tea cups and saucers. New pieces were introduced by Hall China for Jewel until 1980.

In these pages, you'll find tabletop completer items, on-trend trays, Hall China's famous teapots, and even oven-to-table bakeware that suits your specific situation. Happy browsing!

BEVERAGE SERVICE
HALL CHINA

A BEAUTIFUL PERFORMANCE, EVERY TIME

In the 1950s, Hall manufactured a teapot that, when lifted from the table, would play a rendition of "Tea For Two." A lot has changed in beverage service over the decades that followed, but one thing remains the same: demand for tabeletop elegance.

Hall China offers a classic selection of cups, mugs, teapots, pitchers, and coffee pots in a variety of shapes, sizes, and colors. Hall products do not pit, corrode, or transfer flavors. You're sure to serve just the flavors you create, in a perfectly durable vessel, every time.

Hall Beverage Service: distinctive and reliable.

1927

In the late Roaring 20s, the Lost Generation of writers, artists, musicians, and intellectuals came of age. Jazz music flourished along with unprecedented economic growth and prosperity. The Cotton Club opened in Harlem, Grauman's Chinese Theater opened in Hollywood, and The Hall China Company®'s third plant opened in East Liverpool, Ohio.

BIGGER PANS AND PLATTERS

Managing food quality while minimizing food waste is a major concern for foodservice operations that batch prepare and hold food for guests. The Hall China Company® caters to this segment, as the only source for durable, easy-to-clean, American-made ceramic baking and serving pans.

Our buffetware also includes generously sized ceramic platters suitable for grocery food service, bakery, buffet, family-style service, catering, and more. These super-sized servers offer unmatched heat and cold retention with the expected durability that is the hallmark of Hall China.

Hall's beautiful buffet and catering items pair perfectly with popular dinnerware collections from our sister company, Homer Laughlin, making us a true single source for catering and buffet service.

Hall buffetware: service with a measurable difference.

1930

While Heinz was busy creating their 57 varieties, Hall China was busy consolidating. They replaced their three plants with one new plant in East Liverpool and their bottle kilns with three new tunnel kilns.

Did You Know?

Our ceramic food pans allow cooked foods to maintain their quality longer compared to the alternative—stainless steel—which continues the cooking process. Ceramic food pans are the only holding pans recommended for delicate menu items such as eggs or heavy cream-sauced dishes.

COOK & SERVE
HALL CHINA

HIGHER QUALITY, RELIABLE RESULTS

Hall China offers the most complete line of baking, serving, and storage dinnerware in the industry. Designed to distribute heat evenly and avoid scorching, Hall's oven-proof and freezer-proof dinnerware handles extremes, time and again. Glazes remain fresh and brilliant despite years of daily use.

Dramatically more appealing than stainless steel and cast iron servers, Hall China helps you capitalize on the kitchen-to-table trend, with ceramic selections that beautifully merge back-of-house with your table service. As part of the HLC family of companies, Hall China and Homer Laughlin are uniquely positioned to complete a presentation worthy not only of your brand, but of your customer's connection to it.

Hall's bakeware stands the test of time and temperature. Resilient and infinitely reusable, Hall's bakeware is ideal for "cook and serve" or pre-meal browning.

Hall Cook & Serve: handling extremes, beautifully.

1933-1936

The Depression found most people struggling and in fear. The warmth from coffee, tea, and home-cooked foods served as a comfort, and Hall China's coffeepots, teapots, and oven-proof dishware were part of that process. In 1936, Hall China introduced its own dinnerware.

HALL CHINA

COMPLETING YOUR SETTING

You invested in interior design. You created your signature look and selected dinnerware that complements your style. Now your center-of-the-table accessories need to pay back on your brand's promise as well. Remember, it is in the details that an impression is completed.

Hall Accessories: the finishing touch for your table.

1938

Long before plastic containers were readily available, most perishable food in the refrigerator was stored in glass or ceramic containers. Hall China, in a partnership with Westinghouse and other companies, made a variety of food containers in art deco colors and shapes.

RAMEKINS & SOUFFLÉS
HALL CHINA

SINGLE SERVINGS MADE SIMPLE

From one to 20 ounces, the ramekin is neither bowl nor dispenser. It is a unique presentation that lends a European flair to any tabletop. Portion control and pure pizazz are the hallmarks of service with ramekins. And Hall's hardy ramekins and custards are long-wearing and far more scratch-resistant than nearly any disposable plastic or glass styles.

Hall's ramekins can withstand the torch for crème brulee, and they're just right for pot pies, baked eggs, and any other single-serving dish. Thanks to good looks and our impressive variety of colors, you needn't hesitate to take them directly from the oven or microwave to the table.

Individual portions fit perfectly, allowing for self-contained side servings for everyone at the table.

Hall: matching durability with quality.

2000-2010

Kelly Clarkson won the first "American Idol" and Hall China celebrated its first century in business. Hall continued to grow stronger—both the company and the pottery itself. With a 12-acre factory under one roof, 125 employees, and six state-of-the-art fast-fire kilns producing ware that's uniform and 32.2% stronger, Hall had firmly established itself as a leader in the industry.

SOUP, SALAD & PASTA
HALL CHINA

BEAUTY WITH A PURPOSE

Choose Hall China soup, salad, and pasta serving ware, and you become a master of portion control. Hall presents portion management in the most elegant shapes—transforming the customer experience to make it both satisfying for diners and more economical for you.

When you consider the Hall Soup, Salad & Pasta collection, your creative sensibilities will take root and grow. For salsas and relishes to soups and salads, our selection of specialty bowls is as fresh as their namesake dishes. Shape and substance combine to create limitless possibilities.

Beyond beautiful, Hall's dense dinnerware always retains heat and cold, keeping your entrées hot and your salads fresh and crisp. Plus, Hall China's lead-free glazes are the hardest, most chip-resistant available.

Hall: giving root to creativity.

2010

The Homer Laughlin China Company acquired Hall China. Joseph M. Wells III, Homer Laughlin president and CEO, said, "By bringing together two giants of the commercial dinnerware/tableware industry, we will be able to better leverage the knowledge and experience both companies have. We hope our customers will continue to look to us for the highest quality, value, and dependability."

ON A TRAY, ANYTHING GOES

The “shareables” movement—appetizers served on trays for the whole table to share—has now transformed the individual serving. Trays are in high demand for entrees, salads, desserts, coffee service, and more. And they fit on the narrow bar top, diner counter, two-top, or long table: anywhere a large round plate can’t go.

Hammered Copper is inspired by the handcrafted hammered metalware of old, reflecting light that dazzles off its textured surface. But Hall’s version is crafted of easy-to-clean, cost-effective ceramic in a variety of shapes and sizes.

Bright White, Hall’s popular true white glaze, now graces new ceramic trays in a distinctive minimalistic design. A barely-there pedestal holds an edgeless stage for plating that pops. Diners and chefs alike will appreciate this simple and pristine backdrop to enhance a beautiful meal.

2016

Homer Laughlin and Hall China continue as leaders in their respective specialties. Together they offer a comprehensive range of attractive, durable, and cost-effective commercial dinnerware, serving ware, bakeware, and tabletop accessories for foodservice institutions.

HEALTHWARE™
HALL CHINA

MAKE MEALS MEMORABLE

For nearly 150 years, HLC has understood the value of a beautiful table setting—but also the need for functionality and durability. This is especially true for dinnerware in hospitals, nursing homes, extended care facilities, and retirement homes. We offer beautifully designed chinaware for every budget or niche, so there's no need to serve on plastic. The Hall China Company® offers a variety of classic serveware, bakeware, and accessories.

Hall China's Healthware™ line, with its variety of shapes, elaborates on traditional utilitarian institutional dinnerware and fills the need for size, safety, and pleasing design. The Healthware line also conserves tray space while offering superior heat retention.

We Pledge ...

To continue to provide a safe, reusable product free of harmful materials.
The Homer Laughlin China Company®'s longstanding commitment to customers' safety is exemplified by the removal of lead, beginning in 1986 with select pieces. Since 1992, the Homer Laughlin line has been completely lead free.

To vigilantly pursue innovative ways to reduce our carbon footprint on the global landscape.
By rerouting waste heat from the kilns to other processes, HLC eliminates the consumption of enough gas every year to heat nearly 1,000 homes. We have also either modernized or removed poorly functioning kilns and dryers to further reduce energy waste. We have implemented a clay reclamation system that blends back 14 tons of waste clay every day into our formulation process. Our made-in-the-USA products are identifiable by the fleur-de-lis symbol on the bottom, ensuring not only top quality but also reduced fuel usage and emission levels involved in transporting shipments from overseas.

To reduce or eliminate our resource consumption and recycle what we use.
A packaging policy instituted a decade ago is credited with reducing cardboard waste by an estimated 170 tons. We recycle all waste cardboard, and any new material we purchase has a minimum of 39% recycled paper content. Additionally, we have begun phasing out our custom foam packing system in favor of a more environmentally friendly air-bubble system to protect products during transit and reduce the amount of foam waste by more than 24 tons per year!

More broadly, HLC recycles more than 100 tons of steel, cardboard, and glass every year and has transitioned entirely to a paperless order confirmation system that saves more than 500,000 sheets of paper per year.

Even our dinnerware plays into our recycling initiatives. Our wastewater treatment processes have enabled the reclamation of 1.2 million pounds of clear glaze that once would have been discarded. We have expanded our glaze reclamation project, emphasizing a reduction of slip and glaze waste.

To recycle dinnerware failing our quality standards and which cannot be sold or donated, Homer Laughlin partners with local raw-material recyclers who use the products as part of an aggregate to make tabletops and countertops. This organization also uses our clear or white-glazed products for their customers in need of grog (ground-up ceramics) who would prefer to have an alternate to the colored-glaze flecks in their countertops and tables. Since this initiative began, more than 17 tons have already been removed from the HLC premises.
